

FELINE PRE-ANESTHETIC CONSENT FORM

Please read through the following information and circle the appropriate answer of yes or no below. Like you, our greatest concern is the well-being of your pet. Before putting your pet under anesthesia, we will perform a physical examination. However, physical examinations will not always pick up potential health and anesthetic risks. Disorders of the liver, kidneys, or anemia can only be picked up through blood tests. If you are concerned about the risks of hidden health problems we would recommend blood screening before anesthesia.

YES	BEST	Chemistry 6 Panel: evaluates liver and kidney function CBC: gives information on hydration status, anemia, infection, the blood's clotting ability	Additional Cost: \$75.00
YES	BETTER	Chemistry 6 Panel: evaluates liver and kidney function PCV: screens for anemia Clot Time: screens for clotting deficiencies	\$57.00
YES	GOOD	PCV: screens for anemia Clot Time: screens for clotting deficiencies	\$19.00
NO	I do not want pre-anesthetic blood work. I understand that my pet may be at additional risk during the anesthetic procedure.
